

## About SK life science

SK Life Science, Inc., is a subsidiary of SK Biopharmaceuticals, Co., Ltd., focused on developing and bringing treatments for disorders of the central nervous system (CNS) to market. Both are a part of the global conglomerate SK Group, the second largest company in Korea<sup>1</sup>. SK life science is growing quickly in the U.S., with headquarters in Fair Lawn, New Jersey.

SK life science has a pipeline of six products in development for the treatment of CNS disorders including epilepsy, sleep disorder and attention deficit hyperactivity disorder, among others. The company's lead product is cenobamate, an investigational compound that is being studied as a potential treatment option for patients with epilepsy.

## We are SK life science, a CNS-focused company

### Values define us

SK life science is defined by our values and driven by the unmet needs of patients, HCPs, caregivers, and the CNS community—nothing else. From these needs our six core values were formed—they are more than words on a page; they are what you can expect from us.

### Company values

- Empower excellence
- Be fully engaged
- Appreciate and recognize people
- Embody a pioneering spirit
- Always do the right thing
- Inspire happiness!

### Our purpose

We believe there is more to life when you connect health with happiness.

## Setting the stage for success in CNS

Pipeline	Discovery	Preclinical	Phase 1	Phase 2	Phase 3
